Energy performance certificate (EPC)				
30, Halford Road STRATFORD-UPON-AVON CV37 9BD	Energy rating	Valid until: 27 March 2029		
Property type		Semi-detached house		
Total floor area		79 square metres		

# Rules on letting this property

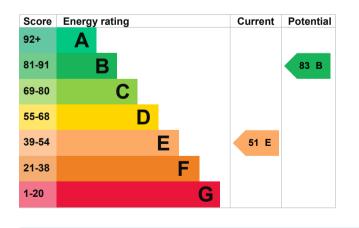

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance for landlords on the regulations and exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance</u>).

# Energy rating and score

This property's current energy rating is E. It has the potential to be B.

<u>See how to improve this property's energy</u> <u>efficiency</u>.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

# Breakdown of property's energy performance

### Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Roof	Pitched, no insulation	Very poor
Window	Fully double glazed	Average
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer, TRVs and bypass	Average
Hot water	From main system	Good
Lighting	No low energy lighting	Very poor
Floor	Suspended, no insulation (assumed)	N/A
Secondary heating	Room heaters, mains gas	N/A

### Primary energy use

The primary energy use for this property per year is 378 kilowatt hours per square metre (kWh/m2).

## How this affects your energy bills

An average household would need to spend £1,109 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £515 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2019** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

### Heating this property

Estimated energy needed in this property is:

- 13,772 kWh per year for heating
- 2,797 kWh per year for hot water

#### Saving energy by installing insulation

Energy you could save:

- 3,281 kWh per year from loft insulation
- 2,499 kWh per year from cavity wall insulation

#### More ways to save energy

Find ways to save energy in your home by visiting <u>www.gov.uk/improve-energy-efficiency</u>.

ct of this	This property produces	5.3 tonnes of CO2
This property's current environmental impact rating is E. It has the potential to be B. Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year. CO2 harms the environment.		1.6 tonnes of CO2
		You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.
	These ratings are based or	•
6 tonnes of CO2	average occupancy and energy use. People living at the property may use different amounts of energy.

### Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Increase loft insulation to 270 mm	£100 - £350	£173
2. Cavity wall insulation	£500 - £1,500	£132
3. Floor insulation (suspended floor)	£800 - £1,200	£50
4. Low energy lighting	£45	£51
5. Heating controls (room thermostat)	£350 - £450	£60
6. Solar water heating	£4,000 - £6,000	£49
7. Solar photovoltaic panels	£5,000 - £8,000	£306

#### Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

## Who to contact about this certificate

#### Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	George Wanley
Telephone	08450945192
Email	epcquery@vibrantenergymatters.co.uk

#### Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.
